

Public Assessment Report

Scientific discussion

**Eletriptan Viatris 20 mg and 40 mg, film-coated
tablets**

(eletriptan hydrobromide)

NL/H/4584/001-002/DC

Date: 1 March 2023

This module reflects the scientific discussion for the approval of Eletriptan Viatris 20 mg and 40 mg, film-coated tablets. The procedure was finalised in the United Kingdom (UK/H/5351/001-002/DC). After a transfer in 2018, the current RMS is the Netherlands. The report presented below reflects the original procedure at the time of finalisation in the UK and has not been changed or updated since.
